## MEMORY CAP®

---

OUR VERY OWN UNIQUE, STATE-OF THE-ART WIG TECHNOLOGY. The ultimate in light comfort and dependable fit.

**Original Memory Cap®** The one that started it all — replaces the wide stretch lace used in wigs with a thinner, more resilient stretch material that actually molds to the shape of the head for a lighter, more secure fit.

This cap is also available in styles with a skin or monofilament top — depending on the wig's style requirements.

**Memory Cap® II**, takes the original design a step further — offering a finer, yet still resilient, stretch lace for custom-like fit technology.

**Memory Cap® III**, offers that same resilient stretch lace but with coated flexible silicone along the back and sides for a superbly comfortable and secure fit that maintains its shape over time and molds to the head.

ALL RAQUEL WELCH WIGS ARE MADE WITH  
MEMORY CAP® CONSTRUCTION.

Nice movement with a sexy swing! This relaxed style isn't the least bit self-conscious. Why shouldn't you show off your curves?!!

IN-STORE  
EXCLUSIVE

This long and softly tapered silhouette reflects the height of “undone glamour”. Soft waves at the crown and sides become slightly tighter at the ends. The overall effect is free-formed movement with a modern edge. Long layers throughout give the overall appearance of a one-length cut and keep the style light with just the right amount of body.

### TEMPLE-TO-TEMPLE LACE FRONT with Memory Cap® III Base

This clavicle length silhouette is punctuated with just the slightest bit of layering to give it a gentle, flowing appearance. Medium sized waves throughout can be worn loosely for an unconstructed feel, while brushing it out and/or finger-styling it will give it a classic, stylized look. Perfect for the woman in search of waved, salon-styled hair without the effort.

# KANEKALON VIBRALITE®

*It's a miracle. (Really!) The modern natural look that's so you along with the luxurious feel of glossy protein rich hair starts with our techno-miracle fiber, Kanekalon Vibralite. Even better, you can wash your wig and it bounces right back. The highest quality synthetic fiber. The real you. Beautiful!*

# *Featuring:* SHEER INDULGENCE™

---

Sheer indulgence. Sheer luxe. Sheer joy. These are the finest wigs in the world. Each piece features hand-tied monofilament design, seamless details, and exquisite craftsmanship. Look your best with our best. So us...so you!

## MEMORY CAP®

---

OUR VERY OWN UNIQUE, STATE-OF THE-ART WIG TECHNOLOGY. The ultimate in light comfort and dependable fit.

**Original Memory Cap®** The one that started it all — replaces the wide stretch lace used in wigs with a thinner, more resilient stretch material that actually molds to the shape of the head for a lighter, more secure fit.

This cap is also available in styles with a skin or monofilament top — depending on the wig's style requirements.

**Memory Cap® II**, takes the original design a step further — offering a finer, yet still resilient, stretch lace for custom-like fit technology.

**Memory Cap® III**, offers that same resilient stretch lace but with coated flexible silicone along the back and sides for a superbly comfortable and secure fit that maintains its shape over time and molds to the head.

ALL RAQUEL WELCH WIGS ARE MADE WITH  
MEMORY CAP® CONSTRUCTION.

Designed to flatter the face, this shoulder length style has softly textured bangs to accent the eyes while point-cut sides adorn the cheekbones. Light layers throughout give this cut maximum movement and the look of a salon quality blowout.

Our Raquel Couture Collection is as close to perfection as it gets. Ultra luxe. Ultra glam. A modern luxury that is rooted in tradition, obsessed with detail and dedicated to technique. Rich, glossy, gorgeous, genius—the very essence of you! Sometimes you do get it all.

# COUTURE

## 100% REMY HAIR

Raquel Couture wigs are made with 100% full cuticle hair.

Our Remy hair is third party tested, hand-selected, certified.

Because all the cuticles run in the same direction, there is a noticeable difference in feel.

Hair is softer to the touch and natural looking. Minimal processing allows the hair to hold its lustrous shine and elasticity.

# THE PINNACLE™ CAP

## The ultimate in hand-crafted couture

This is a designer collection that redefines luxury. Each wig is made entirely from human hair. And only 100% Remy hair will do. (Others claim this. Raquel Couture certifies it.) Every piece is hand-crafted and as close to a custom wig as you can get. Pure indulgence. Pure beauty. Pure Couture.

### *The construction of our French Drawn top offers the ultimate in wig comfort.*

The beautiful details: Each wig is crafted with three layers of material - two outer nylon silk layers and a Swiss Lace layer in the center. The knotting method is state-of-the-art wig making, resulting in the most natural looking wigs on the market today. Hair is knotted on the middle Swiss Lace layer and then pulled through the super-fine nylon silk mono top layer. Knots in the middle layer are invisible, which gives the appearance of naturally growing hair.

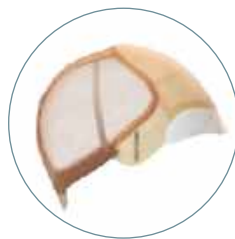

The third layer rests on the wearer's scalp and offers the ultimate in wig comfort whether the client is simply looking for a fashionable style or is suffering from complete hair loss.

FRONT

TOP

SIDE

BACK

Take it to the extreme in length that shouts luxury. Long barely there layers add flow and movement to this superwoman length. Add a bang or customize the length to create any hairstyle you desire. These bouncy layers can be transformed with waves or slick straight strands. Embrace extreme length in this Couture style that's more than glamorous.

# HAIRUWEAR® ACCESSORIES

1) **UNBREAKABLE FASHION MANNEQUIN HEADS** Smart and chic, these beautifully hand painted mannequins provide the perfect display for any wig. Available in two sizes:

- 21" Unbreakable Free Standing Mannequin Head
- 14" Unbreakable Free Standing Mannequin Head with slat wall attachment

2) **FIBERGLASS FACELESS MANNEQUIN HEAD** Reflecting the latest trend in mannequin design, this abstract faceless 18" fiberglass head includes a slat wall attachment for free standing or slat wall display.

3) **HAIRUWEAR® WIG STAND** Perfect for drying, storage or travel, this stand keeps a wig fresh and ready to wear. Made of sturdy, lightweight plastic, it snaps apart and lies flat for traveling ease. Allows air to circulate for quick drying.

4

4) **HAIRUWEAR® CHIN STRAP** Adjustable for a secure, comfortable fit, our fix-a-fashion chinstrap holds the wig for styling ease. Made of an elastic strap with chrome clips, it leaves both hands free for brushing, combing or holding a mirror.

5

5) **HAIRUWEAR® WIG CAP** Made of washable, stretch nylon, this light and cool wig cap lets one feel confident that her own hair is securely held under the wig with no revealing wisps showing. The cap also prevents wig slippage. One size fits all.

## For Professional Use Only...

6) **HAIRUWEAR® 1" STYLING BRUSH** The narrow design allows for brushing a few strands at a time for styling control and the "tail" can be used to tuck stray hair under the wig. Stainless steel, ball-tipped bristles are designed to comb through synthetic wig fiber without damage. Will not stretch or pull the fiber like regular hairbrushes. Lifts or smoothes fibers to make styling a snap!

7) **HAIRUWEAR® OVAL WIRE BRUSH** Stainless steel, ball-tipped bristles are designed to comb through synthetic wig fiber without damage. Will not stretch or pull the fiber like regular hairbrushes. Lifts or smoothes fibers to make styling a snap!

8) **HAIRUWEAR® WIDE TOOTH COMB** Recommended especially for today's silhouettes, the HairUWear® styling comb will not damage fibers or generate static electricity. The wide plastic teeth are designed to provide the "finger styling" effect that is so popular among today's top celebrity stylists.

9) **HAIRUWEAR® PIC-COMB** Designed for easy teasing or removing snarls, this comb won't split wig fibers. The long metal prongs are for lifting, fluffing or smoothing.

10

10) **HAIRUWEAR® WIG STEAMER** For professional use only, this steamer is ideal for restyling synthetic and human hair wigs and hairpieces. Both easy to use and lightweight in design, this compact and portable steamer features a 4.7 oz. water reservoir for extended steaming time. 900 watts/AC 120V/ETL Listed. Instructions included.

11

11) **HAIRUWEAR® TAPE MEASURE** Convenient, easy-to-hold flexible tape measure to ensure the perfect fit for your client's wig. Double-sided tape includes inches and centimeters.

12

12) **HAIRUWEAR® SHEARS** These high-quality cutting and texturizing shears are ideal for customizing synthetic and human hair wigs and hairpieces without dulling your expensive shears. Use the cutting shears to adjust the length or simply to frame your client's face. Use the texturizing shears to reduce density or add volume to your client's wig. Purchase individually, or as a money-saving pair!

# HAIR CARE & HANDLING INSTRUCTIONS

---

## Tru2Life® Heat-Friendly Fiber

### PRE-WASH

- Gently remove tangles with fingers or a wide-tooth comb. Start at the ends and slowly work toward the roots to avoid damage. Do not brush.

### WASH/CONDITION

- Add a small amount of HairUWear Shampoo to a washbasin of cool water. Use shampoo sparingly.
- Place product in washbasin and allow it to soak for 5 minutes. Do not scrunch or agitate the product.
- Rinse by holding under running cool water until the water runs clear. Gently squeeze or use a clean, dry towel to press out excess water. Do not twist or wring.
- Apply a light coat of HairUWear Leave-in Conditioner + Detangler avoiding the base and roots. Applying conditioner to the base may cause shedding.
- Place wet wig on a folding HairUWear Wig Stand or hairpiece on a HairUWear Hanger until it is completely dry. Finger styling is recommended.

### STYLING

- Shake and style with your fingers to achieve the desired look. We recommend a HairUWear Styling

Brush, HairUWear Styling Comb or fingers to style.

- Apply a light mist of HairUWear Leave-in Conditioner + Detangler to difficult tangles if needed.
- Heat-friendly synthetic fiber can be curled, blow dried or flat ironed to achieve a different hairstyle.
- Heat-friendly synthetic fiber can withstand heat up to 350°F/180°C. We recommend a low-medium setting.
- Style as desired:
  - To straighten, take a 1 inch section starting at the roots and run a flat iron to the ends.
  - To curl, wrap the hair around a curling iron and hold for 10 seconds. Carefully slide the iron out and pin the curl in place. Once the fiber has completely cooled it will keep the curl until heat is applied again.
  - If desired, use HairUWear Hair Spray on the final styled product.

### TIPS & TRICKS

- Soaking longer than the recommended time will damage the product.
- Hot water will damage heat-friendly synthetic fiber.
- Sudden bursts of heat, such as

opening an oven door, will damage heat-friendly synthetic fiber.

- Do not dry on a solid form or mannequin head to avoid stretching the cap.
- We do not recommend sleeping, showering or swimming during wear.
- Store the wig on a HairUWear Wig Stand or hairpiece on a HairUWear Hanger to avoid unwanted kinks or crimps.
- Lace is delicate and should not be tugged or pulled.
- After extended wear, matting and frizz can occur. To smooth, wash, condition and spray with HairUWear Leave-in Conditioner + Detangler then blow dry with a HairUWear Styling Brush.
- Heat-friendly synthetic fiber can withstand heat up to 350°F/180°C. We recommend a low-medium setting. Fiber will be damaged if the heat setting is too high. We do not recommend curling or straightening the hair while wearing. Heat-friendly synthetic fiber will get very hot.
- Any cutting should be done by a professional hair stylist. No returns or exchanges will be allowed for worn or altered products.

# Kanekalon Vibralite® Fiber

## PRE-WASH

- Gently remove tangles with fingers or a wide-tooth comb. Start at the ends and slowly work toward the roots to avoid damage. Do not brush.

# Human Hair

## PRE-WASH

- Gently remove tangles with fingers or a wide-tooth comb. Start at the ends and slowly work toward the roots to avoid damage. Do not brush.

## WASH

- Do not soak or submerge product. Rinse by holding the hair under running cool water. Allow the water to run from roots to ends.
- Place a small amount of shampoo for color-treated hair in your hand, evenly and gently stroke it through the hair in a downwards motion from the roots to the ends.
- Rinse by holding under running cool water until the water runs clear. Gently squeeze to press out excess water. Do not twist or wring.

## CONDITION

- Place a small amount of conditioner for color-treated hair in your hand, evenly and gently work it through the hair in a downward motion from the mid-shaft

down to the ends avoiding the base and root. Applying conditioner to the base may cause shedding.

- Leave conditioner on for 1-2 minutes or follow the conditioner manufacturer's instructions. Do not exceed 3-5 minutes.
- Rinse by holding under running cool water until the water runs clear. Gently squeeze or use a clean, dry towel to press out excess water. Do not twist or wring.
- Place wet wig on a folding HairUWear Wig Stand or hairpiece on a HairUWear Hanger until it is completely dry. Finger styling is recommended.

## STYLING

- Style as desired:
  - To straighten, take a 1 inch section starting at the roots and run a flat iron to the ends.
  - To curl, wrap the hair around a curling iron and hold for 10 seconds and release.
  - If desired, use HairUWear Hair Spray on the final styled product.

## TIPS & TRICKS

- Wash or rinse all human hair products and style before wearing. Human hair is not ready to wear out of the box.
- Rinsing with hot water will damage the cap.
- Do not dry on a solid form or mannequin head to avoid stretching the cap.
- We do not recommend sleeping, showering or swimming during wear.
- Store the wig on a HairUWear Wig Stand or hairpiece on a HairUWear Hanger to avoid unwanted kinks or crimps.
- Lace is delicate and should not be tugged or pulled.
- Avoid brushing the hair when wet to prevent damage.
- Any cutting or chemical processes, such as perming or coloring, should be done by a professional hair stylist. We do not recommend lifting or bleaching human hair; depositing color provides the best result. No returns or exchanges will be allowed for worn or altered products.

# JUST YOUR STYLE!

*Find the right one for you*

---

## WHAT'S YOUR FACE SHAPE?

### ***Diamond***

All the right angles! If you have wide cheekbones, a narrow chin and forehead, you might want to soften the sharpness with a chin length bob. It's easy to add fullness to your forehead with a sweep of bangs.

### ***Heart Shaped***

As feminine as it gets, a heart-shaped face has a wider forehead and a narrower chin. Why not accentuate your big beautiful eyes and take a little focus off your chin? Long, piecey bangs and full hair around the jaw flatter. Sideswept bangs add definition to your cheekbones.

### ***Oblong***

If your bone structure is slim and chiseled (how elegant!), enhance it with some softness and fullness. If you're in the mood to create the illusion of an oval face, try a chin length bob, a thick fringe, a half-bang, or soft waves.

### ***Oval Shaped***

If you have what is considered to be the perfectly proportioned face (lucky you!), anything goes, from a super-short style to long sweeping layers. Soften it up or slick it back—it's all good.

### ***Pear Shaped***

If your face is narrowest on the top, go for styles that soften and reduce the jaw line. Try flattering layers. Or strike a balance with volume at the temples, sides, and crown. Bangs can be an awesome, easy way to widen the top half of your face.

### ***Round***

Turn up the volume and opt for height, not width. Go slim and sleek with a long-angled bob or long layers. Or add some height with spiky layers on top; add long wispy side areas to narrow your cheekbones. (Who doesn't want to be well-rounded?)

### ***Square***

A strong, striking look. Your hairline and jaw are wide, so why not balance that with a wig that adds height on the top and keep sides narrow. An off-the-forehead-style does just that. Curly texture and wisps of hair around the face soften the angular lines.
